ENGLAND. QUEEN'S HOTEL, LONDON, Jun. 1. Mr. Burlingame and Lord Clarendon he new British Foreign Minister, had an interview to day, when they agreed upon the principals for future British policy to be adopted towards China, Lord Clarendon in reviewing his former conversations fully acknowledged the propriety and justice of the several points which Mr. Burlingame had advanced in reference to the policy which he deemed desirable; that Eng-Saturday Noon, January 9th. land did not desire or intend to apply any unfriendly pressure in order to induce China to advance more rapidly in her intercourse with foreign nations than was consistent with safety and the feelings of the Chinese people. The following articles were then agreed to between Lord Clarendon and Mr. Burlingame: First, That it is necessary to observe the existing treaty stipulations. Second, That all negotiations should be conducted with the Central Government, and not with Local authorities. Third, That before the inauguration of war, the matters in dispute should be referred to the home governments. Lord Clarendon has sued instructions to the British agents in China to act in accordance with the spirit and with the objects above explained, and moreover, he cautioned the Britsh subjects to pay due respect

not only to the laws of China, but also

to respect the usages and feelings of the

### THE POSTAL SERVICE. The Charges Agaist Postmaster-General Randall.

Washington, December, 31.
There has been some discussion here There has been some discussion here to day about the statement published yesterday by Postmaster-General Randall, denying the recent charges that he had paid a claim amounting to one hundred and ninety thousand dollars to Mr. Paston of Arizona, for postal service which was never performed.

In the face of this denial a singular feet appears when the records of the fact appears upon the records of the Postoffice Department and the claim alluded to was paid upon an order of Mr. Randall's after the Auditor had refused to allow the account, and against the written protest of Gov. McCormick, of Arizona, who said that no mails were ever carried over the route, and certified that the affair was an immense

swindle.

Mr. Randall explains the charges as to his expenditure of fifty thousand dollars per year for carrying the mails to Havana by the Baltimore Steamship Company, when the regular line would perform the service for less than onetenth of that sum, by saying that this money is paid to carry the mails to Key West, same company agreeing to drop the mails at Havana. Mr. Randall says that without this service the inhabitants of Key West would be without the mails altogether.

This explanation would probably

satisfactory but for the singular fact that in September last Mr. Randall made a contract with one J. K. Roberts, of New York, to run a line of steamers between New Orleans and Key West to carry the northern mails, for which he is paid one thousand and three hundred dollars the round trip. This contract Mr. Roberts sub-lets

ing the Baltimore Steamship Line be true, the expense of carrying the mails to Key West amounts to one hundred and ten thousand dollars per year, against fifty-eight thousand dollars annually heretofore. It appears upon the books of the Auditor's Department that the money paid to the Baltimore steamers is no

mails by this line amounted to two hundred and forty-two dollars and fifty cents, estimated as sea postage at seven cents a letter, while the mails left at Key West did not exceed seventy-five do Four thousand dollars were paid for this service.

As this is one of the most barefaced swindles ever attempted, Congress will probably give those who make the charges an opportunity to testify be-
